What is Forex-Comix?

Not a financial trade term for starters!

Language learning is big business. Most enthusiasts quickly tire of rote grammar books and vocab lists.

Our aim is to make language learning fun, and educational. Impossible? We don't think so.

Graphic novels and comic books are a wonderful way to learn a language - using rich images and conversational styles to entertain children and adults alike.

So whether you pine for some Tintin in the original French, or The Walking Dead in Spanish, Forex-Comix provide a platform to enable exchange with other like-minded comic book fans of your target language.

How Does It Work?

To participate in an exchange, you should have something to offer. Duhr!

Example: I want to learn latin Spanish. I have a few old-school English Marvel comics (Avengers) that are gathering dust in the attic. Simply 'Add' the comic to our database. Here you can also see what comics are available in your chosen language.

You can exchange comics directly with the owner of the comic of your choice at our monthly networking meetups - also a chance to practice your language skills!

Couldn't be easier!

Ready to Start?

Learner

Yes! I really want to improve my language skills!

Let me see more...

Exchange Meetups

These monthly meetups are organised by Forex-Comix and offer a wonderful opportunity for comic-book aficionados, and language learners to exchange comics, and converse in other languages.

Social, casual and sharing a love for the written word, they take place in cafes around Dublin.

This is a great opportunity to make new friends.

And, they're free to attend!

Check the calendar for upcoming meetups.

Alternatively, subscribe to our newsletter (below) to learn about future meetups and special discounted comics in your area.

This would be a read-only calendar with no option to add/edit current events.

Colleges/Schools

Welcome!

Our goal at Forex-Comix is to make language learning fun. We strongly believe that a student's progress can be accelerated when exposed to the diverse range of illustrated comics, books and graphic novels.

Given the public's appetite for superhero movies, the box office success of the Avengers and other movies, interest in comics has never been greater for both adults and children.

Our comic database is the ideal resource to complement your course material in a fun and challenging way.

Membership Benefits

- 10 comics delivered every month directly to your school/college
- Keep the comic if you want! Or send them back (SAE included) and we offer credit against your next comic purchases.
- You choose from our catalogue the language, and desired profile, e.g children, adults
- Excellent condition and in paperback. Our research shows that students are less likely to engage with electronic comics versus the real thing. Nothing quite beats the feel of a real comic!
- Give students a break from the textbooks and introduce a pleasure outlet for their creative mind to explore
- Increase retention of your language students by increasing their enjoyment of language learning
- Use the comics and content to explore new themes and discussion with your students.
- Tap into the comic book network (see our Personal profile section) to find new students. What is the value of a new signup up to your language course?

- All of this for the small fee of \$49 per month -

Bookseller

Welcome!

We love comics. We love language learning.

We think foreign language comics are one of the best ways to achieve this aim.

There is a surprisingly small number of foreign language comics in Dublin. For such a multicultural city, the options for language learners, especially for beginners, are typically children's books or novels which are often too advanced.

We want to connect your comic books to an audience who will read widely and often.

Membership Benefits

- Drive readers to your physical or digital store by adding your comic books inventory to our database.
- Clear storage space and get rid of unwanted stock.
- We would inform language learners about your new stock via our monthly newsletter.
- Pay a flat monthly fee even if we refer hundreds of customers to your store!
- Cross-sell and upsell opportunities. Once readers visit your store, showcase higher margin items for purchase.
- Build store credit against the monthly cost, by offloading comics to us.
- Our social channels will promote and highlight special offers/discounts of comics at your store.

- All of this for the small monthly fee of \$29 -

Description

Use comic book font for style

Scrolling background image to be determined - comic theme

Stylistically, using big white rectangles to imitate actual comic book

Modal with sliding images of comics and students

LANGUAGE LEARNER section

Rating field? Ranking?

A future requirement would be for registration to be necessary (free) before adding books or searching (biz purposes)

Pre-requisites of Milestone 3 would be achieved with this portal, namely, adding data, search, deletion, etc.

This would be a read-only calendar with no option to add/edit current events.

SCHOOLS Section

BOOKSELLERS Section

This gateway may not be developed in this project. Customer login would make the process much better. For future consideration...

This gateway link would be different to the personal user portal. Probably something to develop at a later date, including logins etc.
